Meeting Agenda

Date: 2013-05-13

Facilitator: Jakob Csörgei Gustavsson

Participants: Jakob Csörgei Gustavsson, Niklas Helmertz, Lucas Persson, Joel Torstensson

1. Objectives: (5 min) Resolve any issues preventing the team to continue (this should be possible to verify at next meeting, short clear description, use issues from project site).
- Menu
- Still going to implement maps?
- Add more powerups? Ideas?
- How finished are RAD & SDD?

2. Reports: (15 min) From previous meetings, (un)solved issues, etc. , see also 4
- Menu WIP, can select users and keys, but not pretty nor easy to use.
- Quite a bit of refactoring done
- Power-ups can now stack properly
- All icons done
- Body/Round-powerups now use generics (not everywhere though)

3. Discussion items (35 min)
Menu
- Need to add more options
  - Turn radius
  - Speed
  - Width?
  - Hole frequency
- Make it look nicer
- Be able to set goal points (though provide default)

Still going to implement maps?
- Probably not.

Add more powerups? Ideas?
- Power-up chance
- No specific ideas for new power-ups at the moment

How finished are RAD & SDD?
- SDD quite close

- Both need a bit more updating but are very close to completion

Need more tests?
- More tests in round, currently only a crude collision test
- Use coverage plugin when doing tests, aim for 100% model coverage.

4. Outcomes and assignments: (5 min)
- Lucas: Fix type checking in power up factory
- Joel: still start-up script + settings class
- Jakob: Maybe tests.
- Niklas: Continue work on menu.
- Everyone: someone fix collision bug..

5. Wrap up
- 1a: Jakob
- 2a: Joel
- 3a: Niklas
- 4a: Lucas (disconnect)
